

## OPENING OF THE 11th F.P. JOURNE BOUTIQUE IN KIEV - UKRAINE

**Kiev, 13 February 2017** - F.P.Journe is happy to announce the opening of its new Boutique in Kiev, Ukraine, at Gorodetskogo Street, in the prestigious Arkhitekтора district.

This is the brand's 11th Boutique, following those of Geneva, Paris, New York, Tokyo, Los Angeles, Bal Harbour, Hong Kong, Beijing, Boca Raton and Beirut. Beautifully designed according to the same concept as the other Boutiques, it allows collectors and aficionados of Eastern Europe to discover the brand's exclusive haute horology universe, in an elegant yet relaxing atmosphere.

It features a salon and a library, where collectors may discuss their shared passion with enlarged black and white photos of the master and his watchmakers decorating the walls. They can admire the complete collection of the brand's precision chronometers, while discovering Limited Series and other special editions reserved exclusively for the F.P.Journe Boutiques.

The acclaimed Franco-Swiss watchmaker François-Paul Journe has been creating innovative mechanical timepieces for over 33 years. All calibres made in 18K rose Gold, unique signature of the brand, are engraved with the label: "Invenit et Fecit", certifying that each handmade chronometer was designed and produced exclusively in the Manufacture's workshops in central Geneva.

Thanks to his continuing research on precision timekeeping, François-Paul Journe conceives unique Haute Horology watches that are unparalleled, both aesthetically and technically. His innate sense of innovation has won him many prestigious awards and prizes the world over.
