OCTA LUNE

OCTA LUNE
NEW INTERPRETATION OF THE EMBLEMATIC OCTA COLLECTION

F.P. Journe presents the new Octa Lune: a more visible reading of the time and a date twice as large.

The 2 dials of the Octa Lune are in 18K Gold.

The first dial, off centre, with embossed hour numbers surfaced with a diamond tool has been enlarged for a better reading of the time.

The second dial features a very large date in aperture at 11h, the retrograde power reserve indicator on a scale of 120 efficient hours (5 days) at 9h and the phases of the moon at 8h.

The mechanical movement with automatic winding (calibre 1300.3) is manufactured in 18K rose Gold. It is wound mono directionally by the F.P. Journe 22K Gold rotor for an unequalled efficiency.

The Octa Lune is available with a case in 40 or 42 mm. in Platinum or in 18K red Gold, a red or white Gold and silver dial, on leather strap, Platinum or red Gold bracelet.

Specifications_

Movement_

Calibre Exclusive F.P. Journe 1300.3 in 18K rose Gold
Mechanical with automatic winding
Rotor in 22K Gold, off centre and guilloché
Winding speed, 274 rotations/24 hours (anti clock wise)

Dimensions of the movement_

Overall diameter: 34.60 mm
Casing-up diameter: 30.40 mm
Overall height: 5.95 mm
Height of winding system: 3.10 mm
Diameter of stem thread: S1.20 mm

Balance_

Four adjustable inertia weights
Anachron flat balance spring
Mobile stud holder
Free-sprung
Nivatronic laser soldered balance spring
Pinned GE stud
Frequency: 21,600 v/h, (3Hz)
Inertia: 10.10 mg*cm²
Angle of lift: 52°
Amplitude: 0h dial up: ± 300° / 24h dial up: ± 220°

Escapement_

Linear lever escapement 15 teeth

Autonomy_

160 ± 12 hours

Main characteristics_

Mono directional automatic winding
Instantaneous date change
Three position crown
Correction of the date, position 2, anti clock wise
Correction of the moon, position 2, clock wise
Correction of the time, position 3

Indication_

Off centre hours, minutes and small second
Large date in aperture
Power reserve at 9h
Phases of the moon at 8h

Finishing_

Circular Côtes de Genève on bridges
Partial circular graining on base plate
Polished screw heads with chamfered slots
Pegs with polished rounded ends

Case_

Platinum PT 950 or 18K red Gold
Diameter: 40 or 42 mm
Total height: 10.07 mm

Number of parts_

Jewels: 37
Movement without dial: 289
Cased up on leather strap: 312
