# F.P.JOURNE

## Invenit et Fecit

Grand Prix d'Horlogerie  
de Genève

2003

**FRANCOIS-PAUL JOURNE IS AWARDED THE PRIZE  
WATCH OF THE YEAR FOR BEST MEN'S WATCH**

**WITH THE OCTA LUNE**

### **OCTA LUNE**

The Octa collection has been developed from the most advanced inventions by F.P.Journe: an automatic calibre conceived for the integration of various complications, without any need to modify its size. Genuine chronometer, this calibre features the utmost balance between force, abilities and performance.

A worthy heir to the Octa collection, the OCTA LUNE combines the aesthetic refinement inherent to the brand, with an exclusive and innovative automatic movement providing a power-reserve of more than five days. Genuine chronometer, this calibre features a perfect the utmost equilibrium between the force, the abilities and the rendering.

The dial in 18-carat yellow, red or white gold, with the guilloché silver hour and minute circle, features a patented F.P.Journe large date display, as well as power-reserve moon-phase indicators. The cases are crafted exclusively in platinum, or in red gold. An "Invenit et Fecit" watch that will appeal to a public in quest of elegance combined with authentic and innovative horological sophistication.
