Invenit et Fecit

F.P.Journe unveils in “Premiere”  
The Chronographe Monopoussoir Rattrapante Bleu  
Unique watch developed exclusively for Only Watch

F.P.Journe has **developed an entirely new watch exclusively for Only Watch**. It is a unique watch that will never exist in the F.P.Journe collection.

The watch is unique, the dial is unique and the case is unique.

A case in Tantalum of 44 mm

A pusher at 2h for the chronograph

A pusher at 4h for the rattrapante (split-seconds)

A movement of 15 lines in 18K rose Gold, constructed in the purest horological tradition, each lever and spring is mirror polished, featuring a long autonomy of 80 hours and make it possible to use the chronograph and the split-seconds efficiently after 2 days.

A blue chrome dial adorned with an unusual topography and adorned with vivid colors.

While we look at this work, one can say that horology is sometimes a major Art !

F.P.JOURNE  
Invenit et Fecit

UNDER THE HIGH PATRONAGE OF HSH PRINCE ALBERT II OF MONACO

**ONLYWATCH**

AUCTION - 11 NOVEMBER 2017 - 2:30PM (GENEVA TIME)
