O *by* F.P.JOURNE

COMBINING TRADITION, INNOVATION  
AND MODERN TECHNOLOGY,  
F.P.JOURNE HAS DEVELOPED A  
REVOLUTIONARY HOROLOGICAL  
CONCEPT.

PHILOSOPHY OF THE ÉLÉGANTE BY F.P.JOURNE  
TECHNICAL AVANT-GARDE

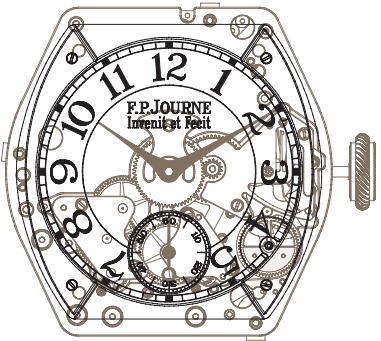

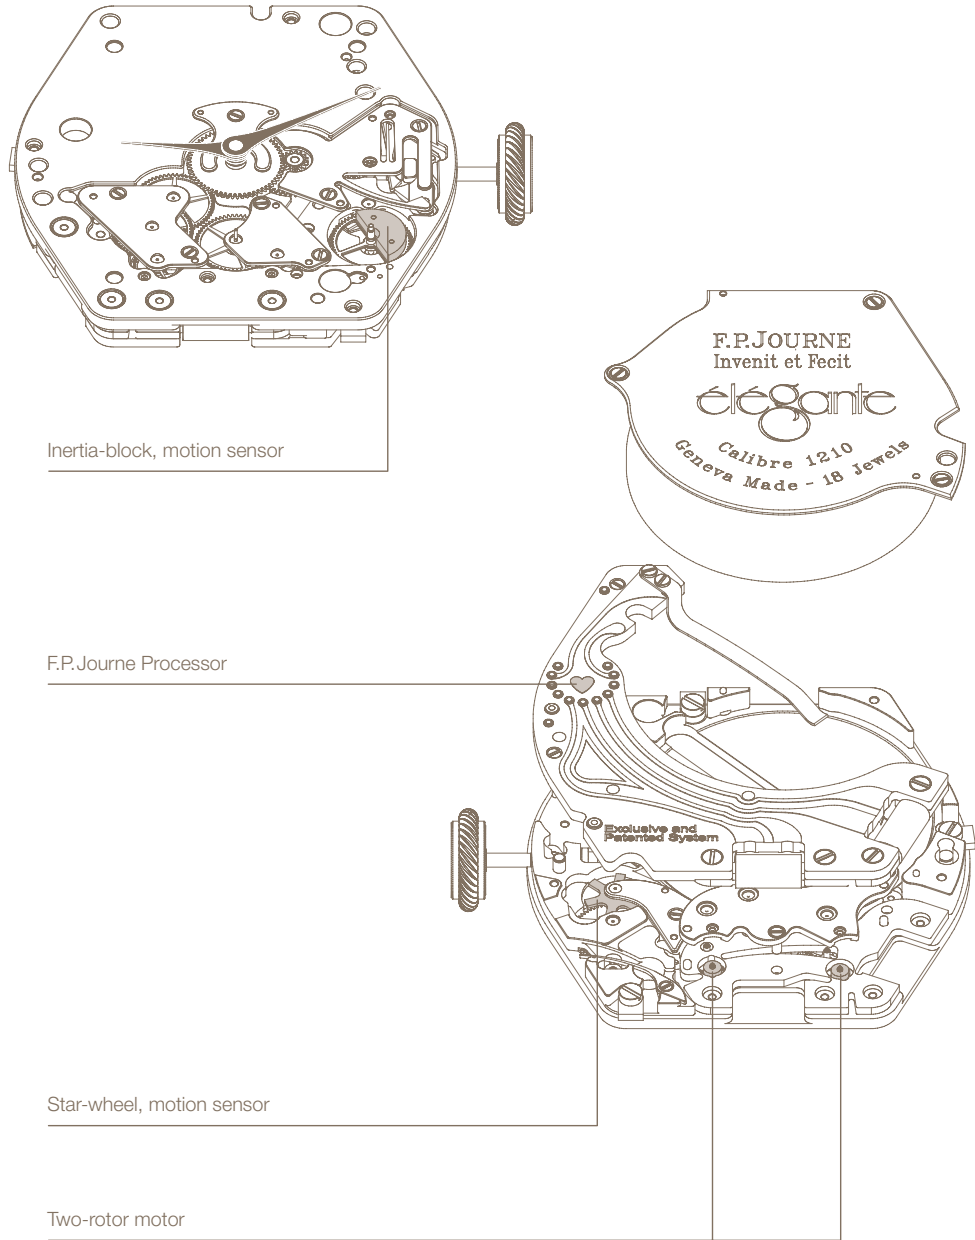

If electronics had existed in the 18th century for Marine Chronometry, the master horologists would have used it for navigation, to achieve maximum precision combined with elegant construction and luxurious design.

F.P.Journe produces Haute Horology movements visible through a sapphire case back that reveal their beauty, exceptional finishing and noble decoration.

The horological expertise demonstrated in F.P.Journe watches and their exclusive assembly process are combined in the élégante by F.P.Journe.

The basic conception of the electronic components is extremely important. This is why F.P.Journe has developed an efficient movement that consumes less energy, benefiting the environment. The élégante by F.P.Journe's integrated circuit features very high-performance electronic components, offering 8 to 10 years of autonomy when the watch is worn and up to 18 years in standby mode. As an ultimate feminine touch, on the back of the movement a heart marks the location of the microprocessor symbolizing the heart of the watch.

François-Paul Journe explains: "I created a different watch dedicated to comfort of use and adapted to women's modern needs. I wanted a watch that was different, with a very long autonomy and very comfortable".

élégante\_ Ref. ELT  
Calibre 1210

Indications: central hours and minutes, small seconds.  
Case: flat Tortue®, 40 x 35 mm In Titanium with cloisonné inserts,  
set with 38 brilliant cut diamonds VVS F/G ~ 0.50 carat, overhall height 7.35 mm.  
Dial: centre in entirely luminescent sapphire, outer dial with screwed Steel elements.  
Hands: Blued Steel. Strap: Rubber powder rose.

## REVOLUTIONARY HOROLOGICAL CONCEPT

It took 8 years of research for F.P.Journe to develop this revolutionary horological concept with extremely precise requirements, leading to this gem of innovation, technical performance, precision and comfort.

The *élégante* by F.P.Journe was designed and conceived specifically for women, providing this watch with a very long autonomy of 8 to 18 years depending if in daily use or in standby mode.

The *élégante* by F.P.Journe embodies the intelligent watch. This electromechanical watch is fitted with a mechanical motion detector visible on the dial at 4h30. After 30 minutes motionless, the watch switches to standby mode in order to save energy and its hands stop turning.

During the standby mode, the microprocessor continues to measure time, but the mechanical elements - gear train, rotors and hands, stop moving. As soon as it is worn again, it automatically sets itself to the correct time; the hands taking the shortest path, whether clockwise or counter-clockwise.

The *élégante* by F.P.Journe allows time to be stopped and started again, absolute dream of all watchmakers. Magical!

Today it features the only haute horology electromechanical movement conceived and made for the luxury market with a true vision of luxury. With a definitely feminine and refined elegance, its innovative and precise movement adapts perfectly to the way of life of the contemporary woman.

All the mechanical elements of the movement are manufactured by F.P.Journe, following its standards of state-of-the-art excellence in Haute Horology. The electronic parts are made in Switzerland according to F.P.Journe strict criteria, including a microprocessor specifically created for this watch.

## EXCELLENCE & CONTEMPORARY DESIGN

### ABSOLUT COMFORT

Classic yet contemporary, combining tradition and modern technologies, the élégante by F.P.Journe embodies the magic inherent to all F.P.Journe creations and surely makes its mark on horological history.

The modern design and unusual shape of the flat Tortue shaped case, trademarked®, and its ergonomically designed rubber strap providing a perfect fit for all wrist sizes, blends with the performances of an exceptionally comfortable to wear electro mechanical watch.

The flat Tortue case shape adapts to every style from casual to chic. The ultra-light Titanium version makes it also the ideal watch for a sporting activity. Completely water resistant to 30 meters, its screw down crown provides full safety during immersion in water. The red Gold and Platinum versions symbolize city élégance while the sophisticated Jewellery version is adorned with multicoloured precious stones sublimating ladies wrists.

The entirely luminescent dial of the Titanium version offers optimal legibility at night while the hands indicate the time as in a shadow play. During the day, it reminds the gleam of white mother of pearl.

Beyond its very long autonomy, its electromechanical movement provides a great precision, a perfect asset to always be on time.

## ÉLÉGANTE BY F.P.JOURNE

40 MM

The case of the élégante in 40 mm is available in polished Titanium or set with a row of diamonds and 7 different colours of rubber strap; white, powder rose, chocolate, kaki green, turquoise, midnight blue and light blue. It is also available with a ceramic insert assorted to the colour of the strap, with or without one row of diamond setting.

The 18K red Gold version with one row of diamonds, or non set, is proposed with a silver rose Karung snake strap; the Platinum version with one row of diamonds, or non set, is proposed with a silver white Karung snake strap.

The élégante 40 mm is also available in a jewellery version:

With diamond Full set red Gold or Platinum case and dial pave with diamonds, and an Artistic version with a Platinum case pave set with diamonds and blue sapphire and a dial pave set with diamonds.

With diamonds and precious stones, on Platinum case only, Full set with diamonds and rubies, or blue sapphires, or tsavorites, or black diamonds. The dial is pave set with white diamonds and the hour ring in matching coloured stones. Folding clasp in Platinum set with diamonds, bracelet in powdered satin.

## ÉLÉGANTE BY F.P.JOURNE

48 MM

The élégante by F.P.Journe 48 mm with a polished and brushed Titanium case establishes a contemporary sportive style for masculine wrists as well as for ladies who prefer their watch oversized. The rubber strap is proposed with an array of 9 different colours; grey, red, orange, yellow, white, turquoise, deep blue, navy blue and kaki green. Dial entirely luminescent.

Enhanced with a bezel entirely set with diamonds, the 48 mm Titanium case become an horological jewel, with a silver white Karung snake strap.

ÉLÉGANTE  
BY F.P.JOURNE

MOVEMENT

Calibre 1210  
Electromechanical.  
Patented two-rotor motor.  
Dedicated processor, specific functions  
and low consumption.  
Quartz frequency: 32'768 Hz.

MOVEMENT DIMENSIONS

Overall dimensions: 28.5 x 28.3 mm  
Casing-up: 27.9 x 27.7 mm  
Overall Height: 3.13 mm  
Height of winding stem: 1.10 mm  
Diameter of stem thread: S 0.90 mm

PARTICULARITIES

Standby after 30 minutes motionless.  
Restart and automatic time setting when  
the watch is put back on.  
Motion detection oscillating weight  
visible on the dial.  
2 positions hand setting stem.

MAIN CHARACTERISTICS

Time adjustment in position 2  
of the hand-setting stem.  
Stop second in time setting position  
(crown pulled).

AUTONOMY

Daily use: 8 to 10 years.  
Standby: 18 years.

INDICATIONS

Central hours and minutes, small second at 6h00.

FINISH

Golden movement 4N.  
Engraved and decorated battery bridge.  
Cotes de Genève.  
Screw heads polished and bevelled.  
Pegs with polished rounded ends.

NUMBER OF PIECES

Jewels: 18  
Movement without dial: 132  
With case and strap: 165

CASE

– Flat Tortue®: 40 x 35 mm,  
total thickness: 7.35 mm  
– Flat Tortue®: 48 x 40 mm,  
total thickness: 7.95 mm  
Sapphire crystal case back.  
Water resistant to 30 meters, screw-down crown.

DIAL

Inner dial in sapphire entirely luminescent or  
black or white sapphire.  
Outer dial with screwed Steel elements.

STRAP

Rubber: available in different colours.  
Karung snake: silver white or silver rose.  
Powdered satin in different colours.

SETTING 40 MM

Titanium

Case in polished Titanium with or without  
ceramic insert, set with 38 brilliant cut diamonds  
VVS F/G pour 0.50 carat or without setting.  
Dial centre in sapphire entirely luminescent,  
outer with screwed Steel elements.  
Hands in blued Steel.  
Bracelet rubber in 7 colours.

Red Gold 5N

Case in 18K red Gold set with 38 brilliant  
cut diamonds VVS F/G ~ 0.50 carat or non set.  
Dial centre in black sapphire,  
outer with screwed Steel elements.  
Hands gilded 5N.  
Bracelet in silver rose Karung snake.

Platinum

Case in Platinum PT 950 set with 54 brilliant  
cut diamonds VVS F/G pour 0.62 carat or non set.  
Dial centre in white sapphire,  
outer with screwed Steel elements.  
Hands in blued Steel.  
Bracelet in silver white Karung snake.

Red Gold 5N Full set

Case in 18K red Gold set with 281 brilliant  
cut diamonds VVS F/G ~ 3.23 carats.  
Dial centre set with 381 brilliant cut diamonds  
VVS F/G ~ 0.6 carat,  
outer with screwed Steel elements.  
Hands gilded 5N.  
Bracelet in silver rose Karung snake.

Platinum Full set

Case in Platinum PT 950 set with 281 brilliant  
cut diamonds VVS F/G ~ 3.23 carats.  
Dial centre set with 381 brilliant cut diamonds  
VVS F/G ~ 0.6 carat,  
outer with screwed Steel elements.  
Hands in blued Steel.  
Bracelet in silver white Karung snake.

Platinum Artistic set

Case in Platinum PT 950 set with 787 brilliant  
cut diamonds VVS F/G ~ 1.05 carats and  
blue sapphire ~ 1.09 carats.  
Dial centre set with 381 brilliant cut diamonds VVS  
F/G ~ 0.6 carat, outer with screwed Steel elements.  
Hands in blued Steel.  
Bracelet in silver white Karung snake.

Platinum Full set diamonds and precious stones

Case in Platinum PT 950 set:  
– 239 diamonds VVS F/G ~ 2.18 carats  
and 146 rubies for 1.43 carats.  
– 239 diamonds VVS F/G ~ 2.18 carats  
and 146 blue sapphires ~ 1.43 carats.  
– 239 diamonds VVS F/G ~ 2.18 carats  
and 146 tsavorites ~ 1.29 carats.  
– 213 white diamonds VVS F/G and 72  
black diamonds for 2.82 carats.

Centre dial:

- Pave set with diamonds and hour ring with  
rubis ~ 0.79 carat.
- Pave set with diamonds and hour ring with  
blue sapphires pour ~ 0.79 carat.
- Pave set with diamonds and hour ring with  
tsavorites for ~ 0.74 carat.
- Pave set with white diamonds and hour ring with  
black diamonds for ~ 0.46 carat.

Folding clasp in Platinum set with diamonds.  
Outer dial with screwed Steel elements.  
Hands in blued Steel.  
Bracelet in satin powder.

SETTING 48 MM

Titanium

Case in polished and brushed Titanium with screwed bezel.  
Dial centre in sapphire entirely luminescent,  
outer dial with screwed Steel elements.
