

élégante

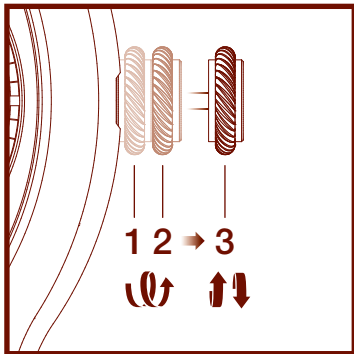

Use

To set the time_

- unscrew the crown anti-clockwise until the clic from position **1** to position **2**.
- pull out the crown from position **2** to position **3**.
- set the time clockwise or anti-clockwise.
- push the crown back from position **3** to position **2**.
- push and screw the crown clockwise to get back to position **1**.

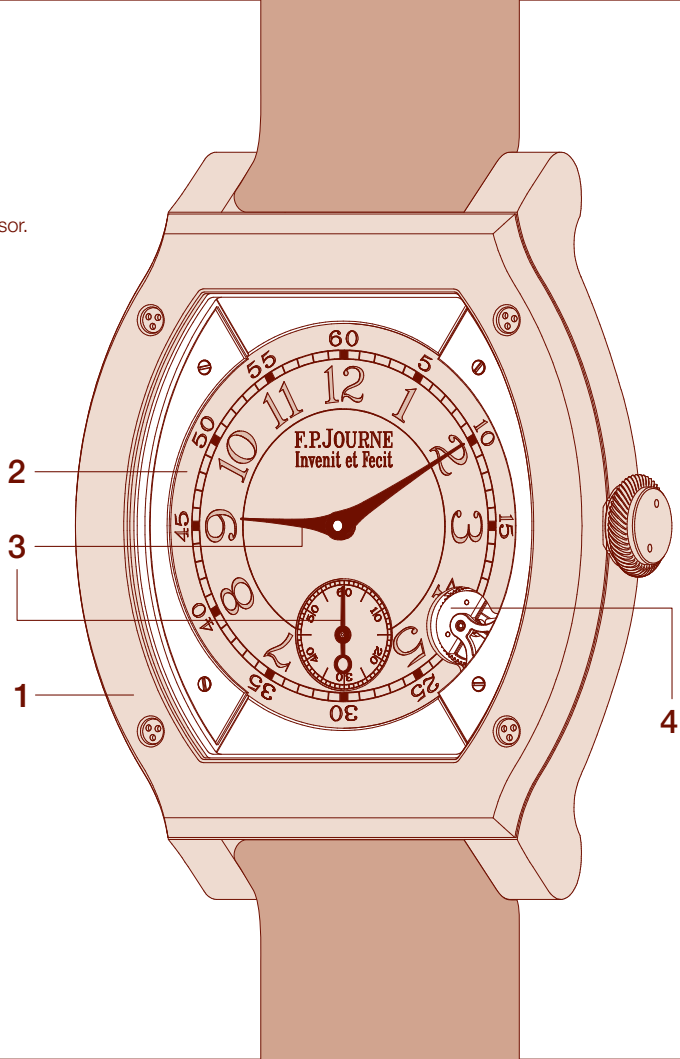

Important:

The position **1** (screw-down crown) guarantees full functionality and water-resistance (3 atm) of your watch.

- 1 Titanium case.
- 2 Luminescent inner dial.
- 3 Blued Steel hands.
- 4 Inertia-block, motion sensor.
- 5 Cloisonné inserts.

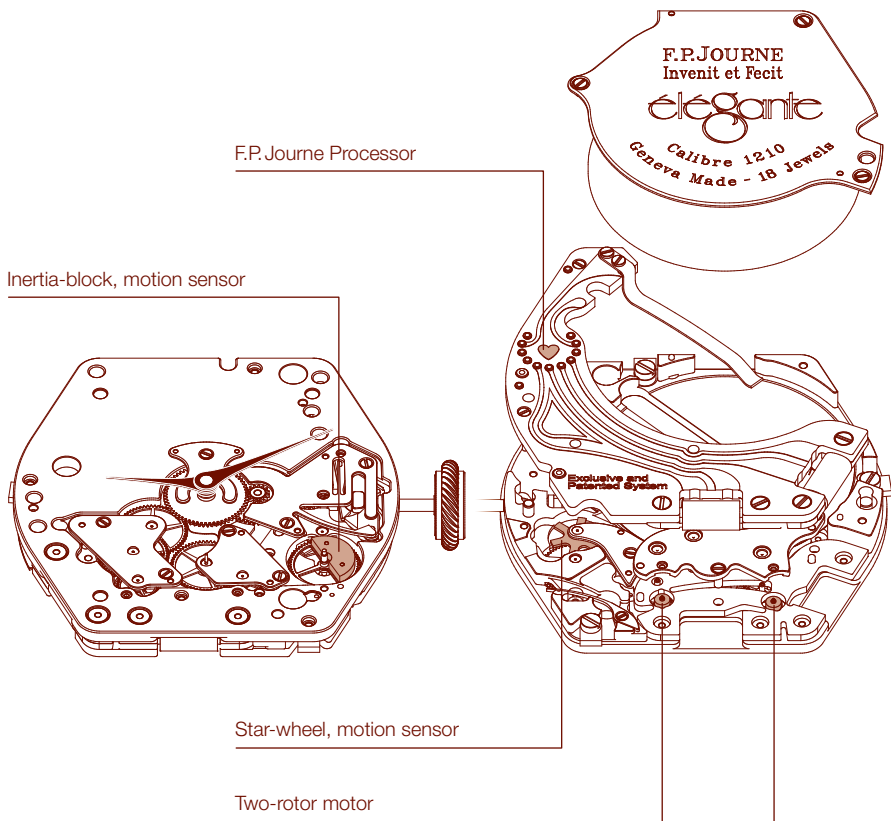

Characteristics

Standby mode_

Your watch goes into standby mode after 30 minutes when not being worn (the inner mechanisms stop to save energy and extend the battery life). The hands will stop turning and the displayed time freezes.

Your watch rapidly reset to the exact time when moved. Time resetting is triggered by the motion sensor of the watch which restarts the mechanisms to display again the exact time.

Specifications

Movement_	Calibre 1210 Electro-mechanical. Patented two-rotor motor. Specific processor developed for F.P. Journe. Quartz Frequency: 32,768 Hz
