At the beginning of his career, François-Paul Journe was lucky enough to receive the support of some of the emblematic figures of haute horology, such as George Daniels or Jen-Claude Sabrier, and he, in turn, wanted to give a chance by supporting a young spirit of the car racing world.

Jerez	Cadix, Spain	from 6 to 8 October 2017
Marina	Abu Dhabi, UAE	26 November 2017

In 2011, F.P.Journe launches the lineSport, an unprecedented watch collection of stunning lightness, entirely made of aluminum alloy, specially designed for high level sporting activities. It is the first collection of sports watches with an haute horology movement, in aluminum.

In 2012, Jean Alesi becomes the ambassador of the Centigraphe Sport with Titanium case and movement in aluminum alloy. F.P.Journe then creates the limited series ARS Indy 500, a tribute to the participation of Jean Alesi in the mythical race of Indianapolis.
